

WOOLWICH POLYTECHNIC SCHOOL FOR GIRLS Learning and Teaching Policy

Reviewed: September 2023 Approved: December 2023 Revision due: December 2024

Overview

At WPSFG we aspire for all pupils to excel, both **academically** and **personally**. We want our pupils to **know more**, **understand more** and **do more**, empowering them to become **leaders** of their future lives.

We know that high-quality teaching makes a significant difference to the educational outcomes of our pupils. As a result, we are focused on developing our teachers as reflective and highly skilled classroom practitioners

"The Poly Way" - Poly Descriptors for Learning and Teaching

We do not prescribe a particular pedagogical approach. However, there are key areas of classroom practice which we value. To support with consistency across our classrooms, we have devised a series of Poly Descriptors. These outline the various components of what we believe to be the key ingredients of successful lessons and are divided under the key sub-headings below.

PD1: High expectations for all learners

PD2: Poly Routines

PD3: Well planned and sequenced lesson delivered by subject experts

PD4: High quality instruction

PD5: Use a range of questioning strategies

PD6: Timely and focused feedback

Continuing Professional Development

We believe in evidence-informed practice and providing our teachers with regular opportunities to develop as classroom practitioners in a way that is personalised as well as subject specific.

CPD is delivered on a weekly basis through our Wednesday CPD afternoons. These take the format of 20 minute sessions focused on one of the following:

- **Poly Practice** ('The Poly Way' focus routines and expectations)
- **Takeaway Teaching** (Sharing of good practice)
- Mini-Bites (Developing pedagogical practice in manageable chunks)

These shorter sessions are underpinned by a half termly extended CPD session where the focus for the half term is covered in more depth. Weekly department time is used to deliver CPD at a subject specific level.

Evaluation, feedback and review

We do not judge individual lessons. Instead, we use our Poly Descriptors to regularly evaluate where our areas of strength are and where we can develop further. Our evaluations take place through learning walks, pupil work reviews and student voice.

This ongoing cycle of evaluation is supported through our open door policy and use of feedback booklets. Classroom teachers regularly receive feedback on their areas of strength focused around the Poly Descriptors as well as a key lever for improvement.

Our learning and teaching strategic priorities and CPD sessions/schedules are responsive to our evaluation processes and therefore subject to regular review and adjustment, when needed.
