Accessibility Policy and Plan

Reviewed: November 2021

Approved : December 2021

Due for renewal: December 2022

This Accessibility Policy and Plan are drawn up in compliance with current legislation and requirements as specified in Schedule 10, relating to disability, of the equality act 2010. School governors are accountable for ensuring the implementation, review and reporting on progress of the Accessibility Plan over a prescribed period.

Schools Aims:

At PolyMAT we are committed to establishing equality for all pupils, their parents, staff and other users of the school. In drawing up this Accessibility Plan the Trust set the following priorities:

- To provide safe access throughout the school for all school users
- To ensure that the learning and teaching environment and the resources used are suitable for all staff and pupils, tailoring the requirements to suit individual needs.
- To provide training to all staff regarding the needs of disabled people and how to provide assistance to enable them to enjoy the school experience as fully as possible.

This policy ensures that as a Trust we:

- Promote equality of opportunity for disabled people: pupils, staff, parents, carers and other people who use the school or may wish to; and

According to the act a "disabled person is defined as someone who has a physical or mental impairment which has an effect on his or her ability to carry out normal day-to-day activities". The effect must be substantial, long term and adverse. The Equality Act definition of disability covers physical disabilities, sensory and other mental impairments and learning disabilities.

This Accessibility Plan forms part of the school's Disability Equality Scheme and is a statutory duty. It sets out how the local Governing body plans to proactively improve the equality of opportunity for those within its school community who have a disability. The duty is to anticipate and plan for future needs.

In accordance with the Act the plan focusses on three "key areas":

- Improve access to the physical environment of the school, adding specialist facilities as necessary. This covers reasonable adjustments to the physical environment of the school and physical aids to access education.
- Increase access to the curriculum for pupils with a disability, expanding and making reasonable adjustments to the curriculum as necessary to ensure that pupils with a disability are as, equally, prepared for life as are able-bodied pupils. This covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits. It also covers the provision of

specialist aids and equipment, which may assist these pupils in accessing the curriculum.

- Improve and make reasonable adjustments to the delivery of written information to pupils, staff, parents and visitors with disabilities. The information we provide should be available in various preferred formats within a reasonable time frame.

This Accessibility Plan should be read in conjunction with the PolyMAT SEND policy, Equal Opportunities policy and Complaints Procedures.

Trust partnerships that support the implementation of this plan:

PolyMAT has close working relationships with its feeder schools through transition arrangements in the summer term before starting at school. This may include multi-agency meetings with parents and all professionals involved in supporting the child.

The PolyMAT SEND policy ensures that staff identify, assess and arrange suitable provision of pupils with special educational needs and / or disability. Working alongside professionals including the local authority and educational psychologists, the Assistant Head for Learning Support ensures that additional resources, including staffing, are allocated where appropriate through additional high needs funding.

It is the responsibility of the whole PolyMAT community to implement this scheme in a manner which promotes the inclusive ethos of our Trust.
